

RIVER TEES HOSPITAL SCHOOL INSPIRING ALUMNI WHERE ARE THEY NOW?

"I faced a number of emotionally draining challenges prior and during my time at River Tees Hospital School, but no matter how hard things seemed, staff at school never gave up on me. Even on the days that it felt it was impossible to motivate myself, they encouraged me to power through and, without that support, I wouldn't have achieved any GCSEs. The personalised routine, that staff established for me, was difficult at first but they believed I could do it, even when I felt like giving up. This relentless perseverance changed my mind set and, almost without realising it, I had achieved 100% attendance throughout Y11.

I found college challenging, as I didn't have the passionate support I had at Hospital School and I wanted to drop out. Staff at Hospital School wouldn't let that happen and continued to support me even when I had left. Mr. Burns found me an apprenticeship, to support my college course. He took me to the interview and since then my apprenticeship position has evolved into a fulltime job. It's thanks to Hospital School that I've been able to transform an interest into a career in the Motor Mechanic Industry."

Jack Green 2020 – 2021
