

RIVER TEES  
Hospital School

# RIVER TEES HOSPITAL SCHOOL INSPIRING ALUMNI WHERE ARE THEY NOW?

*"Before coming to River Tees Hospital School, I really struggled in mainstream education. My previous school was so big, busy, and noisy that I just couldn't cope. At first, I wasn't sure what to expect but moving to Hospital School turned out to be the best decision of my secondary school journey.*

*I live with extreme anxiety, autism, and mobility difficulties. Although these challenges haven't disappeared, Hospital School has helped me understand my individual needs in a safe, supportive environment, surrounded by adults I trust. For the first time, I felt understood. I was able to continue my education, engage with my learning, and prepare for my GCSEs and my next steps into college.*

*The biggest things my parents wanted for me were to be happy, feel less isolated, and improve my mental wellbeing. At one point, I didn't think any of that would ever be possible. Looking back now, I can honestly say I feel happier and more confident than ever before. I've made genuine friendships with people I know will always support me, and I'm excited about what comes next.*

*River Tees Hospital School has given me confidence, belief in myself, and the courage to look forward to the future. It has shown me that anything is possible, and if I can overcome my challenges, then other young people can too."*

**Achieved: 9 GCSEs at Grade 4 and above**

**(Including Grade 7 in English Language, Grade 5 in English Literature and Grade 6 in History)**

**Former recipient of the Prestigious Outstanding Achievement Award at Hospital School**

In recognition of Harry's extraordinary courage and determination.
